TOO LARGE? TOO BULKY? THAT'S NOT AN OPTION!

Transport from XS to XXL

We are very flexible in terms of transport solutions as we have access to our partners' extensive vehicle fleets. The smallest box, the largest machine, an airplane or a yacht? We'll transport it safely and reliably.

Too heavy, too large or too bulky is not an option for us.

WE TRANSPORT FOR YOU:

- Rolling cargo of all sorts (cars, trucks, construction machines)
- Container
- Heavy cargo
- Hazardous goods
- Military equipment
- Project goods

... and much more.

Prior to the transport of your goods, we offer you professional transport consultancy and planning in order to meet your requirements.

Monitoring and access control ensure optimal goods protection and established quality standards at the highest level.

We can also offer you storage possibilities all over the world upon request – at different sites and in cooperation with our partners.

Please feel free to contact us!

At Trans Global Logistics, we put great emphasis on the personal support of our customers. Permanent contacts will accompany you throughout your project. Due to transparent working methods your contacts can provide you with information about the current delivery status of your goods at all times.

In this regard, our team does not only stand out with its know-how and flexibility but, above all, with a service-oriented friendliness.

Give us a try!

OUR SERVICE PACKAGE INCLUDES (AMONG OTHER THINGS):

- Continuous freight information
- Global network of renowned partners
- Flexibility
- NVOCC
- Highest quality through continuous process monitoring

SOCIAL RESPONSIBILITY

Global action means global responsibility.

Trans Global Logistics is always on the move. Not only with regard to the transport of goods but also when it comes to thinking outside the box.

We are conscious of our responsibility toward the environment, our customers as well as our employees. And we accept this task as well!

State-of-the-art technology and permanently maintained vehicles allow minimum environmental impact.

We're riding the green wave!
